Curriculum Vitae

Profile:

After earning my BTEC diploma at College and then further studies at University, to obtain my degree in Web and Graphic design, my main objective was to secure employment, to gain experience in this field. I now wish to expand my knowledge and apply my skills into other areas of IT solutions and software development.

Key Skills:

- Willingness to take on further challenges and responsibilities, which co-exists but not limited to, with my job description.
- Able to work under pressure to tight deadlines
- Reliable with excellent organisational skills
- Flexible with exceptional time keeping
- I can work on own initiative as well part of a team
